## What we're about

<https://wpvegas.com/>

WordPress is the most popular CMS around. We meet monthly to discuss WordPress related topics. Our meetups consist of a quick session called "WordPress News Around The World". From there we bring one or two Presenters (<http://wpvegas.com/wordpressenters/>) on stage to talk about a WordPress topic. To close out the night, we turn the stage over to you. Ask your WordPress questions. Someone will know/help you find the answer you're looking for. It's all in the name of fun and WordPress. We hope to see you soon.

My new/first managed WP host (inmotion) suggest to use BoldGrid as a (free) webpage builder plug-in for WP? Good choice? Any disadvantages?

Given Gutenberg is coming out soon, shall I wait starting and designing my first ever WP blog (w/ managed hosting) until it is out?
